## HIGH-QUALITY ACADEMIC PROOFREADING, EDITING AND SUPPORT SERVICES

### ABOUT US

All our staff hold a PhD from a top UK university and have over 20 years of experience in professional proofreading, editing and copywriting in the arts, humanities, law, medicine, and natural and social sciences. They have also lectured and supervised undergraduate and postgraduate students at Russell Group universities.

### PROOFREADING

This service ensures that vocabulary, spelling, grammar and punctuation, as well as the overall layout of your manuscript (e.g., consistency in abbreviations and formatting), are at their best. We use track changes and comments functionality so that you can review every amendment or suggestion. Ideal for any student or researcher wishing to ensure their manuscript is free of errors. [Prices from 1p per word](#)

### STYLISTIC EDITING

In addition to proofreading, as described above, this service focuses on the logic, relevance and clarity of your argument, while addressing inconsistencies in the use of terminology, timelines and referencing, in order to enhance the impact of your work. Ideal for any student or researcher seeking help with language, style and structure in greater detail, especially if English is not your first language. [Prices from 2p per word](#)

### PRIVATE SUPERVISION

If you would like to receive private supervision for your thesis or assignment, we are here to help. We have experience of teaching and supervising students from Russell Group universities. This has included supporting students from undergraduate to doctoral level in the completion of theses and dissertations. By offering these services 'off campus', we trust that students will feel more comfortable raising the challenges they face in relation to completing their theses and dissertations. [Prices from £20 per hour](#)

### ACADEMIC EDITING AND SUPERVISION PACKAGE

This package combines the full editing service with private supervision. This is particularly popular with PhD students, for whom English is not their first language, who are looking for ongoing support 'off campus' regarding their use of language and fluency. [Prices from 2p per word plus £20 per supervision hour](#)

### POSTGRADUATION SERVICES

If you have recently graduated or are about to graduate from university, we can help you in drafting letters of formal or speculative application, personal profiles and CVs, and other content related to your job search. In the process, we will ensure you effectively express how you would add value to your future employer. [Prices from £20 per 500 words](#)
